

Session - Invasive Species Project Priorities

Not in rank order

1. Mapping and databases of invasive species - including hotspots for invasive species
 - a. Generation of data layer and inventory of landowner of where invasive species hotspots are, also showing capacity of landowner for performing management
 - b. But Ensure not duplicate eddmaps.org
2. Strengthening iNaturalist reporting system
3. Outreach campaigns
4. Work with existing resources within agencies Purchasing and maintaining equipment for wood boring insect management
 - a. CAL Fire Curtain Burners, CalTrans spray equipment
 - b. Tub grinder
 - c. Including operators are training on equipment - WF development
5. Supporting Golden Mussel Response
 - a. Boat decontamination facilities
 - b. Upgrading water infrastructure for ag
 - c. Working with state water project
6. Supporting ISHB Response
 - a. Survey, detection, rapid response
 - i. Traps, tub grinders, chips, drone (equipment + operations [i.e., pilot, license, permits])
 - b. Outreach and engagement
 - i. signage
 - c. Research
 - d. Greenwaste and firewood as pathways
7. Weed management area rapid response
 - a. Including equipment for applications or cultural solutions
 - b. Training and operators - WF development
8. Supporting a statewide GSOB response
 - a. Survey detention and Rapid response
 - i. Tub grinder + operations
 - b. Outreach and engagement
 - i. signage
 - c. Research
9. Firewood Task Force funding
 - a. Signage
 - b. General funding
10. Don't pack a pest campaign
 - a. Commercial Drivers License renewal opportunity
11. Border protection station - will be reductions in hours

- a. Additional storage capacity, evaluation tools (microscopes, scanners, hatchets, etc.)
 - b. Signage (\$1M per sign)
- 12. Diagnostic Lab at CDFA upgrades
- 13. Biocontrol facility upgrades and new insectary facility (esp. N. California in Los Alamedos), rearing of beneficial endemic species
 - a. Dr. Morgan's facilities
- 14. Centralized campuses for invasive species facilities (dog training/biocontrol/diagnostics)
- 15. UC Support
 - a. Quarantine facilities at UCD and UCR
 - b. Anything that supports a UC Research and Extension Centers (RECS)
- 16. Augment the Emergency response fund (existing)
- 17. Augment Statewide Aquatic Invasive Species Surveys (3 crews) (Existing)
- 18. International collaboration
